DETAILED ACTION

1-5 and 7-16 are pending

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-5, 7 and 8 drawn to a triazolopyrimidine compounds, composition and their method of preparing of formula (I) and to method for combating undesired microorganism, and method for preparing the composition.

Group II, claim(s) 9 and 10, drawn to compounds of formula (IV) as in claim 9 and method of preparing them.

Group III, claim(s) 11-12, drawn to compounds of formula (IV) as in claim 11 and method of preparing.

Group IV, claim(s) 13 and 14, drawn to compounds of formula (V-a) and method of preparing them.

Group V, claim(s) 15 and 16, drawn to compounds of formula (V-b) and method of preparing them.

2. The inventions listed as Groups I to V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The compounds, their preparations do not relate to a single general inventive concept. For example compounds of formula (I) is different from other compounds therefore they are prepared by different methods.

3. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

4. A telephonic call was made to Mr. Vincent L. Capuano Esqr on 9/7/08 to request the election. A message was left.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be

allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

5. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features.
